Your email: **Subject:** Application for a Generative AI Internship Opportunity

Dear [HR Manager's Name],

I hope this message finds you well. My name is [Your Name], and I am currently pursuing a [degree/program] in [your field] at [your university/institution]. I am writing to express my keen interest in joining [Company Name] as a Generative AI intern, as I admire the company's pioneering work in [specific area of the company's Gen AI initiatives].

During my academic and personal projects, I have gained hands-on experience with the following:

- **Machine Learning & Deep Learning** – built neural network models using TensorFlow and PyTorch.
- **Natural Language Processing** – implemented tokenization, embeddings, and transformer-based architectures for text generation and summarization tasks.
- **Programming** – proficient in Python, along with experience in data preprocessing, model deployment, and version control (Git).
- **Research & Collaboration** – contributed to a university research paper on "Optimizing GPT-like Models for Low-Resource Environments," presented at [conference/workshop].

I am particularly excited about [Company's] recent initiative to develop AI-driven applications that enhance [specific domain or product], and I believe my passion for generative modeling and strong analytical skill set would enable me to contribute effectively to your team.

I would greatly appreciate any information you could share regarding the internship application process, and I am available at your convenience for a brief conversation to discuss how my background aligns with your team's objectives.

Thank you very much for considering my application. I look forward to the possibility of contributing to [Company Name] and learning from your talented team.

Warm regards,
